# CARRIER PRACTICE

FIND THE OPPORTUNITY

# WELCOME TO GALLAGHER BASSETT

---

When we first set out to create our Carrier Practice nearly a decade ago, we knew we were developing something unique that would allow our carrier and MGA partners to deliver on their promises to their policyholders. Our offering has gained traction, and momentum, and continues to evolve as we actively listen to our clients and prospects. I am honored and excited to lead the growth and management of this strategic business segment at Gallagher Bassett. Our future in this space is incredibly bright as the industry continues to understand, appreciate, and demonstrate an interest in partnered models for claims and risk management solutions. Gallagher Bassett is now recognized as the leading claims and risk management partner in the industry, consistently delivering exceptional outcomes and quality service.

As one of the main architects of our Carrier Practice, I have been closely involved in the expansion and success we have achieved over the past decade. Building successful partnerships with clients and achieving industry-leading performance in our insurance carrier portfolios requires a customized approach and foresight. That's how we have taken our Practice to the next level of success. Our partners benefit from the best of both worlds - the GB dedicated claim service delivery model, supported by a global organization.

Our teams of committed claim resolution managers are focused on achieving superior claims outcomes, just as our client service professionals are focused on overseeing, developing, and successfully managing GB's portfolio of carrier direct partnerships. When you consider the award-winning tools we provide our professionals and their teams, along with the brand of excellence expected from all whom we partner with, the impact is significant. Every team member in our GBCare, Major Case Unit (MCU), Data Analytics, GBLMP, Finance, Implementation, and Loss Control is dedicated to delivering that differentiated, best-in-class service model to those we serve. Our team understands what matters most to carriers, program administrators, MGAs and MGUs, fronting companies, legacy aggregators, and captive managers.

Whether it's workers' compensation, liability, property, or complex specialty lines, our expertise and service excellence are always part of the equation. Our professionals understand the unique nature of claims in different sectors and also appreciate the exposures of your policyholders in various industry verticals such as construction, DBA/Federal Agencies, healthcare, hotel/hospitality, manufacturing, PEO/Staffing, public entity, retail/restaurant/food, and transportation. We are dedicated to bringing innovative solutions, strategic foresight, and data-driven approaches to commercial P&C claim resolutions that impact your customers.

Our goal is to provide a path forward, helping to navigate the future with confidence and precision, utilizing a unique blend of your expertise and ours, to support your growth, fuel innovation, manage your total cost of risk, and achieve what matters most to you, your clients, colleagues, and other key stakeholders.

I am excited to see what this team will continue to build together as the industry leader in carrier-partnered models

*Joe Berrios*

# GB CARRIER PRACTICE

A dedicated cross-functional team within GB focused entirely on the unique goals and objectives of insurance carriers, managing general agents, and alternative risk managers.

## CARRIER REQUIREMENTS

### GB DELIVERS

You are under pressure to grow profitably, with your attention and capital pulled in many directions. The need to continuously develop products, expand in markets, delight customers, and keep pace with technology are vital to your long-term success. Across the world insurance carriers are finding and capitalizing on opportunities aligned to these priorities through strategic outsourcing partnerships with GB.

GB are the experts in risk and claims management solutions since 1962. Our Carrier Practice model was built in collaboration with carriers and is different from the traditional TPA model. It is comprised of a dedicated cross-functional team focused entirely on the unique goals and objectives of insurance carriers, managing general agents, and alternative risk managers. We strive to build an integrated claims management program that is aligned and tailored to your specific business goals and internal operations.

### Increase profitability

through superior outcomes, powered by GB's best practice claims management and cost containment strategies to reduce loss costs and unallocated expenses

### Enhance your brand

through a tailored customer experience based on your go-to-market strategy

### Outpace your competitors

with industry-leading analytics and digital competency powered by our enterprise component-based Luminos system

### Proactively address claims industry challenges

such as talent recruiting and development, the ever-changing regulatory landscape, and the latest developments in medical management

# SERVICE DELIVERY PLATFORM

Framework for driving superior outcomes and a best-in-class customer experience.

● Carriers

● Program Administrators

● MGAs

● Risk Retention Groups

● Captives

● Alternative Risk Financing Facilities

\*Specialty Lines includes Construction Defect, Transportation, Professional Liability, Cyber and more.

# WHAT MAKES US DIFFERENT

---

"We have partnered with GB on several books of business since 2002 and have been extremely satisfied with their performance and results. Together with GB, we provide a very customized claims product. This has been a big differentiator for us in the marketplace, and has helped us to carve out a specialty niche. Our success would not have been possible without our account management team and dedicated branch office teams at Gallagher Bassett."

**Sr. Vice President – Claims Operations**  
National P/C Carrier

**Tailored Customer Experience**

"We found ourselves lagging behind the market. GB's investment in their analytics and reporting platform was a big reason we selected them as a partner – it is state of the art. In addition to providing consistently high quality technical claim service, GB also provides access to a claims system which allows clients real time access to claim status and detailed financial data."

**Director of Quality Assurance & TPA Relationships**  
National P/C Carrier

**Delivering Cutting-Edge Technology**

"GB's Carrier Practice platform is unique in the TPA space as it strives to behave like a Carrier. They understand that the goals and objectives of a carrier are unique, so they hire professionals with carrier expertise whenever possible. This is a differentiator. Coupling this with their university recruiting efforts should create a pipeline of talent well into the future."

**Director of WC Claims**  
National P/C Carrier

**Claims Industry Challenges Addressed**

"GB provided the expertise and support we needed to expand our workers' compensation underwriting footprint. We were entrenched in an especially soft market and our growth levers were few – so we branched out into new geographies. GB's branch network and transition strategy enabled this successful endeavor – we look forward to growing our partnership."

**VP National Accounts, Underwriting**  
National P/C Carrier

**Enabling Growth Opportunities**

# WE UNDERSTAND YOUR NEEDS

---

Insurance carriers we work with usually face one or more of the following challenges:

High operational expenses associated with existing claims function that are fixed, and do not flex with business volume changes

Challenges in accessing talent for the claims function to achieve strategic growth, and manage complex risks and specialty niches

Legacy IT systems that do not support the business and are too expensive to upgrade or maintain

Challenges differentiating the customer experience in a competitive marketplace

Underperforming claims outcomes (reserving and claim duration), high loss ratios and/or unallocated expenses

Complex regulatory environment

We have listened closely to insurance carriers and their customers and developed a customized approach to help you find opportunities to improve customer service and drive cost and operational efficiencies.

## National GL / Auto Presence

Centralized Hubs – Nationwide Coverage

## WC Regionalization Footprint and Carrier Locations

# OUR EXPERIENCED TEAM

Before a predictive model is triggered, a medical bill is reviewed or a loss run is generated, there is an interaction – between someone suffering a loss and a claims professional.

We call these claims professionals “Resolution Managers” because of their critical role in managing claims to the best possible resolution. Quality claims handling begins with these individuals, and we make it our mission to attract, develop, retain and recognize the very best talent in our industry.

## OUR PEOPLE ARE OUR STRENGTH

# CARRIER PRACTICE CASE STUDIES

## Case Study: Reducing Claims Costs for a Real Estate and Hospitality Carrier

This client faced misalignment with overqualified adjusters working on simple claims. They were overpaid and undermotivated.

When the claims function was outsourced to GB, we implemented an exposure based staffing model that aligned the appropriate adjuster with the appropriate files measured by complexity. A dedicated team enabled a sense of ownership.

For the last decade, the client has remained a scale carrier partner, growing to excess of \$20 million in annual fee revenue. Results improved (reserving), costs were optimized (exposure based staffing), and reserve adequacy/stewardship reporting was established to enhance communication across the leadership team. The processes established early on, which centered on the execution of best practices, quality, compliance and innovation, have stood the test of time.

## Case Study: Upgrading System Infrastructure for a Global Insurer

GB was asked to provide ongoing management of a WC portfolio on a claims management system that was going to be discontinued, and to help them rebrand a multiline P/C portfolio that was on the same system.

The transition team was critical to the success of the migration, and flawlessly executed our plan migrating over 1,000 claims on schedule. We also facilitated a faster market launch for the rebrand of the PC portfolio than the client could have achieved on their own platform.

## Case Study: Legacy Approach Drives Quantifiable Results

A leading global equipment manufacturer and Gallagher Bassett (GB) client since 2012 had been self-administering their workers' compensation (WC) claims for several decades, with their operations split between an electronic system for financial transactions and paper files for claims document tracking. In this system, claims were processed by different departments, including the legal team, rather than a designated claims management resource, which ultimately led to a disjointed and costly claims management process for their company.

The client recognized that this process could lead to poor overall claims outcomes, missed regulatory requirements, fines, and other issues. Their Risk Management leadership team approached GB to take on their mounting volume of legacy open claims, streamline the run-in claims process, and ultimately improve operational efficiencies and financial outcomes through focused partnership and our industry-leading legacy claims management expertise.

## Case Study: Growing and Innovating with a Global Insurance Carrier

GB was engaged to build a completely outsourced claims and Client Services function to support the projected rapid growth of this start-up company. This required rightsizing the model to flex with the ebbs and flows in their business.

GB partnered with an acquisition and development company and the client's claim leadership to identify and onboard qualified resources. Dedicated virtual branches (including managers) were established for WC and liability, and a Client Executive was appointed to own the Client Services function and provide valuable consult on a number of strategic initiatives. GB delivered white labeled solutions for Luminos, Intake, and the GBGO mobile app.

A start-up a decade ago, today this client represents one of our largest scale carrier partners and we have been selected to support their global expansion.

## Case Study: Finding the Right Talent for a National Carrier

National carriers are under tremendous pressure to innovate and grow profitably. New products and services along with geographic expansion of existing platforms are common strategies. The client also faced a high level of regulation and compliance mandated by the federal government.

GB was awarded the program based on our track record for recruiting, hiring, and retaining world class "Federal" talent. The program launched in 2013 and in 2019 we converted the platform to a dedicated cost plus structure as the program's size and scale warranted the dedication. Further, their growth enabled the creation of a Federal Branch which launched in 2020. This dedicated Carrier Practice branch provides additional scale, recruiting, training, and continues to thrive.

Although the Federal Acts niche use a narrow talent pool, we are actively training the next generation to secure competency.

# GBLMP LEGALSUITE SOLUTIONS

Gallagher Bassett's LegalSuite of litigation support services is built on the firm belief that better information drives better claim outcomes. Our solutions are built using industry best practices and industry-leading advanced analytics enabled by data sets from millions of claims. Each LegalSuite solution is impactful on its own and combined, the suites provide a comprehensive set of capabilities, metrics, analytics, and insights to understand, manage, and improve the value of your legal services and associated claim outcomes.

## ENSURE GUIDELINE COMPLIANCE AND DATA CAPTURE

## UNDERSTAND YOUR FIRM'S PERFORMANCE

GB's LegalSuite includes an industry-leading law firm performance dashboard. The dashboard provides apples-to-apples comparisons across similar claims based on factors that drive outcomes. There are primary elements that differentiate our proprietary performance management solution.

Law firm performance is measured and displayed against GB's book of business, which allows for comparisons against all GB claims for like coverage and state to identify differences in firm and client practices and philosophies that influence outcomes. Performance is also measured and displayed against Client Portfolio to assess relative law firm performance only on a client's claims. This is of value where more than one firm is used for a given state and where coverage practices and philosophies are consistent across the portfolio of claims.

# QUALITY & EXPERTISE

Quality claim handling has been a hallmark of GB since our inception in 1962. Our relentless pursuit of quality improvement has taken us to the next chapter in claims quality in the form of **Real time Opportunities for Superior Claim Outcomes (ROSCO)**. Through ROSCO, we have applied a real-time approach to the majority of our lifecycle claim reviews, which includes 40+ objectives across all lines of coverage.

# ADVANCED ANALYTICS AND BENCHMARKING

Benchmarking is crucial to a successful claims operation, but relying solely on industry benchmarks to inform your claims management can be misleading. Most benchmarks can be imprecise and rely on industry-specific comparisons, including vastly different exposures at the claim level, even in the same jurisdiction. Moreover, inaccurate information and data can have significant negative impacts on your claims programs and total cost of risk (TCOR).

## BENEFITS OF SMART BENCHMARKING:

**Improves** the accuracy of claim benchmarks by incorporating 30+ unique claim characteristics

**Creates** targeted recommendations on where to focus efforts toward proactive program improvement

**Provides** in-depth detail on year-over-year claim trends to help you make better, more informed decisions about your business

**Helps** focus attention and time investment on claims that are most likely to have a severe business impact

The SMART Benchmarking Dashboard provides the ability to determine root cause of opportunity **with just a few clicks, in real time**, across more than a dozen metrics—effectively creating 24/7 stewardship.

For example:

A user finds that their overall costs have increased in the past year. From there, the users can quickly determine the source of the cost increase using the Opportunity Finder feature, which slices outcomes by business division, jurisdiction, accident type and source, industry, and even medical treatment quality. Each driver of opportunity is quantified relative to the SMART benchmark, allowing the user to easily prioritize which drivers to focus on to improve outcomes.

## SMART BENCHMARKING DASHBOARD IS AN INTERACTIVE TOOL TO ANALYZE CLIENT RESULTS RELATIVE TO BENCHMARKS

**Performance Overview:**

- Interactive way to **view client performance on critical KPIs**
- Comparisons of results to **SMART Benchmarks**

**Opportunity Finder:**

- Tool to **identify specific areas of underperformance** vs. benchmarks
- Drill down into more **specific categories and claim-level results** to pinpoint opportunities

**SMART Benchmark Dashboard | Outcomes & Opportunities**

Client Name: All | Treaty Number: All | Coverage: Workers' Compensation | Claim Status: All | Financial Cap: \$250,000 | Attorney Involvement: All | Litigated: All | Claim Volume: CO, ST, TSL

Select a Metric: Avg. Total Inured | \$12,243 | \$11,838 | \$355 | 3% | Gap vs. SMART

Performance Overview: Actuals by Maturity (months): 12, 24, 36, 48, 60
